

# WORLD STEEL BRIDGE SYMPOSIUM

## *Call for Papers*

NSBA's 2014 World Steel Bridge Symposium ([www.aisc.org/wsbs](http://www.aisc.org/wsbs)) will be held in conjunction with AISC's NASCC: The Steel Conference ([www.aisc.org/nascc](http://www.aisc.org/nascc)) in:

## TORONTO, MARCH 26-29, 2014

The World Steel Bridge Symposium brings together design engineers, construction professionals, academicians, transportation officials, fabricators, erectors, and constructors to discuss and learn state-of-the-art practices for enhancing steel bridge design, fabrication, and construction techniques.

The organizers of the 2014 World Steel Bridge Symposium are interested in papers that deal with all aspects of steel bridge design and construction. Papers will be requested based on acceptance of abstracts of 500 words or less.

- Preferred format is a pdf attachment sent to [abstracts@steelbridges.org](mailto:abstracts@steelbridges.org)
- Abstracts are due July 1, 2013
- Authors will be notified of acceptance by August 15, 2013
- Completed papers for review must be received by November 18, 2013
